#### A. THE PROGRAM:

Dynabook Accidental Damage Protection Program (hereinafter referred to as “Program”) is an enhanced local warranty coverage on top of the Standard Limited Warranty. This Program protects the Dynabook Enterprise laptop, tablet and other computing device (hereinafter referred to as “Product”) against accidental damage from customer handling.

1. Customer must purchase this Program at the time of initial purchase of the Product in new condition by the original owner.

3. Notwithstanding article 2 above, should the Product be beyond economical repair, a replacement unit of equal grade or quality will be offered in the exchange, once the exchange is accepted, this Program will be deemed consumed and will cease to be effective regardless of the term of the Program.
4. This Program entitles the Customer to a Carry-In service through Dynabook ASP. Customer may process the claim through the nearest Dynabook ASP in the Product’s purchase country. Owing to the unforeseen nature of the accidental damages to the Product, Dynabook makes no commitment with respect to the time taken to complete a repair.
5. This Program only covers operational or mechanical failure from handling and does not include protection against normal wear and tear, theft, mysterious disappearance, misplacement, viruses, reckless, abusive, willful or intentional conduct associated with handling and use of the Product, cosmetic damage and/or other damage that does not affect the unit functionality, damage caused during shipment of the Product and other limitations listed in both the **LIMITATIONS** and **EXCLUSIONS** sections.
6. Customer is solely responsible for all data stored on the Product. Dynabook does not provide any data recovery services under this Agreement. Neither will Dynabook be responsible for any confidential data on the damaged unit, which must be returned to Dynabook at all times. However, if hard drive replacement is necessary, Dynabook may at its discretion reload, at no charge to customer, the then current version of major application and operating system software customer originally purchased from Dynabook, including any installed custom factory integration applications.
