Toshiba Canvio® AeroCast™ Wireless Portable Hard Drive

Stream Digital Contents on Mobile Devices and HDTV Wirelessly

The Toshiba Canvio® Aerocast™ Portable Hard Drive changes the way you use your portable storage device. The world's first hard drive to be compatible with Google Chromecast (sold separately), the Canvio Aerocast Portable Hard Drive allows users to stream videos to a HDTV via a Chromecast. As a wireless storage device, it also lets users save digital content from mobile devices such as smartphones and tablets, as well as archive photos from camera with its built-in SD card slot.

Stream videos to your TV seamlessly – works with Google Chromecast Watch your favourite movies wirelessly from the Canvio® Aerocast™ on the large screen. All you need to do is download Toshiba's Google Cast Ready app (available free on Apple's App store and Google Play store) to stream videos from the Canvio® AeroCast™ to a Chromecast connected to a HDTV.

Save photos and videos from your mobile device wirelessly

The Canvio® Aerocast™ Portable Hard Drive is perfect for backing up all your photos and videos wirelessly from your smartphone or tablet. You can also share your entire digital library with family and friends through the device's own local Wi-Fi® connection.

The device has a battery life of up to five hours³ and can connect simultaneously with up to six devices, making accessing and sharing files from the digital library easier than ever.

Built-in SD card slot

Digital photography enthusiasts now do not have to worry about running out of storage space. With the built-in SD card slot on the Canvio® Aerocast™ Portable Hard Drive, they can easily back up digital photos and videos from their SD or microSD cards (SD card adaptor required for microSD cards), directly to the Canvio® AeroCast™. What's more, they would be able to view contents instantly via the mobile app.

Product Datasheet

Uninterrupted Internet access on your mobile device

In most cases, users will lose connection to their wireless router when their mobile device is connected to a wireless device, hence losing their Internet access. However, with the Canvio® Aerocast™'s Internet pass-through mode, users can simultaneously access the Wireless Hard Drive and the Internet.

Product Features

Centralised Storage for your media

- Backup media from Smartphone, tablet, laptop or SD card while you're on the move
- · Frees up space from your devices

Easy playback and backup of SD card contents

- Built-in SD memory card² slot
- Ability to backup your SD card contents without PC
- Able to backup contents automatically with a simple configuration

Access and share digital contents wirelessly

- Stream music, photos and videos to your Smartphone, tablet, TV or laptop using Toshiba Wireless HDD app
- Built-in player in the app for videos and photos playback
- Resumes your video from where you last watched
- Share media with up to six users simultaneously
- Built-in rechargeable battery with up to 5 hours of battery life³ from a single charge
- Ability to use it as a wireless media hub in a room, set up 4 different user folders to organise backups on Canvio® Aerocast™

Uninterrupted Internet

 Internet Pass-Through Mode lets you browse the web and stream contents at the same time.

Stay in control using Toshiba Wireless HDD App

- Monitor battery status
- Reboot or turn off the Canvio® Aerocast™ Wireless Hard Drive remotely
- Set up internet settings

 $^{^1}$ One Gigabyte (1GB) means $10^9 = 1,000,000,000$ bytes and One Terabyte (1TB) means $10^{12} = 1,000,000,000,000$ bytes using powers of 10. A computer operating system, however, reports storage capacity using powers of 2 for the definition of $1\text{GB} = 2^{30} = 1,073,741,824$ bytes and $1\text{TB} = 2^{40} = 1,099,511,627,776$ bytes, and therefore shows less storage capacity. Available storage capacity (including examples of various media files) will vary based on file size, formatting, settings, software and operating system and other factors. Microsoft, Windows, and Windows Vista are either registered trademarks or trademarks of Microsoft Corporation in the United States and/or other countries. All other trademarks are property of their respective owners

- ² SD and microSD memory card and microSD card adapter sold separately.
- ³ Battery life may differ depending on user conditions. See http://info.toshiba.com/ for more information
- ⁴ Compatibility may vary depending on user's hardware configuration and operating system
- ⁵ Use of Time Machine software is not supported.
