

# CANVIO<sup>®</sup> AEROCAST<sup>™</sup>

WIRELESS HARD DRIVE (Mac & Windows compatible)

## FEATURES

### STREAM VIDEOS TO YOUR TV SEAMLESSLY – WORKS WITH GOOGLE CHROMECAST

The world's first hard drive to be compatible with Google Chromecast (sold separately). Watch your favourite movies wirelessly from the Canvio<sup>®</sup> Aerocast<sup>™</sup> on the large screen. All you need to do is download Toshiba's Google Cast Ready app (available free on Apple's App store and Google Play store) to stream videos from the Canvio<sup>®</sup> AeroCast<sup>™</sup> to a Chromecast connected to a HDTV.

### ACCESS AND SHARE DIGITAL CONTENT WIRELESSLY

Stream music, photos and videos to your Smartphone, tablet, TV or laptop using Toshiba Wireless HDD app. The built-in player in the app has a playback feature that resumes your video from where you last watched.

### SAVE PHOTOS AND VIDEOS FROM YOUR MOBILE DEVICE WIRELESSLY

Backup all photos and videos wirelessly and free up space from your smartphone or tablet. You can also share your entire digital library with family and friends through the device's own local Wi-Fi<sup>®</sup> connection.

### BATTERY LIFE OF UP TO FIVE HOURS\*

The device has a battery life of up to five hours\* and can connect simultaneously with up to six devices, making accessing and sharing files from the digital library easier than ever.

\*Battery life may differ depending on user conditions. See <http://info.toshiba.com/> for more information

### BUILT-IN SD CARD SLOT

Easily back up digital photos and videos from their SD or microSD cards (SD card adaptor required for microSD cards), directly to the Canvio<sup>®</sup> AeroCast<sup>™</sup>. What's more, view contents instantly via the mobile app.

Note: SD, microSD memory cards and microSD card adaptor are sold separately.

### UNINTERRUPTED INTERNET ACCESS ON YOUR MOBILE DEVICE

In most cases, users will lose connection to their wireless router when their mobile device is connected to a wireless device, hence losing their Internet access. However, with the Canvio<sup>®</sup> Aerocast<sup>™</sup>'s Internet pass-through mode, users can simultaneously access the Wireless Hard Drive and the Internet.

### STAY IN CONTROL USING TOSHIBA WIRELESS HDD APP

Monitor Canvio<sup>®</sup> Aerocast<sup>™</sup> battery status, reboot or turn off the Canvio<sup>®</sup> Aerocast<sup>™</sup> Wireless Hard Drive remotely and set up internet settings. Control is at your fingertips.
